

MANNINGS HIRE SERVICE

Most of Mannings heat treatment equipment is available for hire at competitive rates.

Short or long term hire to suit the customers requirement.

Hire contracts can include an attractive purchase option which can allow a generous discount on hire invoices paid, to offset against the safe price.

Equipment for hire includes:	
ELECTRIC	GAS
Power sources	High velocity gas burners
Cables and splitters	Gas trains and controls
Heating elements	Fans
Mains controllers	Vaporisers
Thermocouple welding units	Radiant burners and controls
Programmiers	Gas detection
Recorders	Confined space equipment
NOTE: Thermocouple - compensating leads - insulating mats are not for hire and should be purchased.	

- All control and recording equipment is calibrated before dispatch and a calibration certificate is issued with each item.
- Instruction sheets - where applicable - are sent with each item and advice on the use of equipment is freely given.
- Training courses are provided at Mannings premises in Southport or on site and give practical and technical coverage of all relevant equipment and procedures.
